

ENCOUNTERING MISS EMILY- Term 4 Week 4

Hello everyone,

Today I would like to teach you about Kotowaza. It's a Japanese proverb or saying. We use it when talking about Kimochis feelings. The saying is "FRIENDLY FACES CREATE FRIENDLY PLACES".

Lovey Dove holds onto 3 Kimochis feelings, **Proud**, **Hopeful** and **Friendly**. When Lovey Dove teaches us "Friendly" she gets us to use our friendly face and body language when talking to others. This makes people feel more comfortable and calmer. In my professional work, we are reminded that you will never know what impact you will have on another

person's life.

Therefore, you should never miss a chance to be friendly and kind to others. Just imagine if we all used our friendly face when talking to other, the world would be a better place.

A fun task to do with your children at home, is to get them to look in the mirror and show you all the different faces they can make. Then ask them to make a friendly face and take a picture of it. One of the bonus' of this is, you will have a beautiful photo of them to put on the fridge. And two, you can remind them to use their friendly face if they forget their manners.

Signing off with a BIG smile, Emily.
